Our Young People.

A visit to the up-town districts most any hour, day or night, will convince any one of the crying need of a tightening of the reins on our young people. It is enough to chill the heart within you to see our boys and girls of tender years roaming the streets late hours of the night and standing on the street corners in the day flirting with boys, and too often, yes entirely too often, some man of mature years is the companion of a girl of tender years.

Mothers and fathers of Nashville, it is a duty that righteousness demands of you to see that your children keep in the path of rectitude. No society nor agency of any kind can do what mother and father can do. Such organizations are commendable, but how can they have a mother's love or a mother's interest? The mother, supported by the father, must rear the children. All praise to every organization that exists for the uplift of humanity, but these are all merely auxiliaries in the training of the child.

Parents of Nashville, take charge of your children. Mothers, be the companions of your daughters and fathers, be the companions of your sons. They cannot take care of themselves, and blessed will be your memory if you throw your arm of protection around them. If you neglect to do so they will curse the day they were born, and you they will despise.

Selfish Ambition.

There is nothing that works greater harm to the people than the selfish ambitions of individuals. True every man is responsible for his acts, but at the same time there are influential individuals who are puffed up with selfishness. They care not what becomes of the people so long as their selfish ambitions can be satisfied. Some people have confidence in them and are often led to do the very things they would not do.

These selfish fellows are always bobbing up, proclaiming their own praises in order to have the people believe they are making great sacrifices for them, when in fact they are only playing for favor.

Nashville is not free of these ambitious, selfish creatures, and the sooner the people find them out the better it will be for all. They are goats in lamb's skins, but the stench is not taken away, and as sure as time lasts their sins will find them out.

Mr. N. B. Dodson, chairman of the Executive Committee of the National Press Association, suggests that steps be taken in the matter of advertisements for papers of the Association. We deem it expedient that such be done. The Negro papers are not getting their share of the big advertising business.

Resolved, That a Negro baseball team be organized with a name other than Giants. This name is copyrighted by a team in the National League and it is unlawful for Negroes to copy names of white folk's organizations.

Say what you will concerning the Negro who supported the democratic ticket in the national election, they have the administration on trial, and more good than harm will come as a result.

Editor Moore, of the Age, has resigned the Liberator's ministership. Not such a bad decision. Fighting the African fever is a harder task than fighting editors.

BIG BANQUET FOR MR JANUARY.

A committee was sent out of town on Thursday morning at 9 o'clock to meet the clubs and business men of Franklin and Brentwood concerning the big and elaborately-planned banquet to be given in honor of Mr. B. H. January at Young's Hotel on April 17th, 1913. The trip was a success in the biggest way and all of Franklin and Brentwood were present on that night to assemble around the festive board and enjoy themselves to the highest. The successful committee was composed of J. H. Green, secretary and treasurer, and Dr. A. B. Brooks, general chairman. The committee, after attending to a successful day's business and selling a goodly number of tickets to the leading residents of these towns, spent a few minutes visiting the Franklin City School, of which Miss Carrie Otey is principal, and a principal that not only the people of Franklin need to be proud of, but the race at large. The system, the arrangement, the art of reciting, the location, the sanitary conditions and the pleasant set of instructors who are laboring hard with the students daily, all of these things, with a large number of other good things we would like to speak of just here but space will not permit. All deserve to be highly complimented.

As we had only a brief stay we could make only short speeches of encouragement, but we feel that both the school and the committee were highly benefited. The school is a fine one and is well supplied with pupils—about 300 in number. It has four teachers, including the principal, viz., Mesdames Halfacre, Doyle, Merrill and Foster, each of whom is doing very much for the development of the mental faculties of the many pupils which they instruct.

After leaving the school we visited a number of the business places downtown, including Mr. Redmond's, Robt. Murdock's tailoring establishment, Dr. McCoy's office, the stores of T. A. Williams and F. Williams, the undertaking business of Mr. Patton and several of the fine and pleasant residents of the city, including the Rev. Mr. D. J. Mitchell, Mr. Wolridge, Miss Hazel W. Doyle and also the home of Mr. and Mrs. J. W. Reddick, a prominent resident of that city. The people of Franklin need to be commended in the highest for their hospitality shown to the committee sent to their city in behalf of the banquet.—adv.

SUNDAY-SCHOOL WORKERS HAVE NEW SLOGAN.

"Every Member of Every Family in the Sunday-school" is the new slogan adopted by the Sunday-school workers of the city of Nashville. This was brought about from the results of the magnificent address delivered by Miss Grace Eaton, of the Fireside School, before the Sunday-School Union at the Kayne Avenue Church, Sunday afternoon, in which she depicted the all-important idea in developing the Home Department and Cradle Roll in the Sunday-School Congress; thus, according to her splendid force of reasoning, carrying the Sunday-school to the home and bringing the home to the Sunday-school. While it was regarded not a new issue, the Sunday-school forces were pleased to have it put in this light. The unanimous acceptance of the pleasing address to such a large audience was demonstrated by the adoption by common consent, of the slogan. Working in this department in the effort to develop it among the Negro Baptists of the United States, is Miss Lorilla E. Bushnell, editor of Hope, who for the past two years at Meridian and at Tuskegee, had demonstrated at the Sunday-School Congress the possibility of this new phase of the work. An address will be delivered along this line at the Sunday-School Jubilee on May 11, at the Majestic Theatre, but just who is to make the address was not announced, as the program committee will not meet until the fourth Sunday in April at Mt. Olive Baptist Church.

DO YOU WANT THE RIGHT TO VOTE?

Do you believe that matters affecting the general public should be submitted to and voted upon by the people? If so, ask your Councilman to vote to submit to the people the proposition as to whether or not a right should be granted the Nashville Traction Co. to build and operate new and independent street railway lines, to carry passengers at reduced rates of fare, namely, school children a round trip for Five (5) cents, and all citizens six (6) fares for Twenty-five (25) cents, and in addition to pay into the City Treasury for the general use of the city, three per cent of the gross car, light and power receipts. And to give a bond satisfactory to the City guaranteeing to build and operate the lines and to carry out these provisions.

Under the charter of Nashville you have a right to know what the proposition of this company is and to vote on questions of this kind, unless your Councilman votes in the City Council votes to prevent you from exercising this right. Do you want to vote on questions of this kind? If so, see your Councilman.—adv.

MAMMOTH SUNDAY-SCHOOL CONGRESS EDITION.

From the Sunday-School Congress headquarters of this city comes the announcement this week that on Saturday, May 3rd, the National Baptist Union-Review will issue its annual Sunday-School Congress edition. This date, declared the Secretary of the Congress, was selected because it is just one month from the date that the special Sunday-School Congress train with delegates from every portion of the Southeast, will pull out from the Union Station over the N. C. & St. L. Railroad by way of Memphis, Little Rock and South McAllister to the scene of the Congress at Muskogee. It is expected that this edition of the Union-Review will have a circulation of fifty thousand. The Congress officials placed an order for an extra number of these papers, because of the enormous amount of information that it will contain concerning the Muskogee meeting.

While the editor of the Union-Review is not in the city, having gone to Florida as the guest of the Florida Baptist State Convention, it was given out, officially, by the Manager of the National Baptist Publishing Board, that arrangements had been perfected for this Congress number. Not only this, but the Congress Secretary stated further that the Metoka and Galeda Magazine, the newest of all the publications from the Publishing House, would, in its June number,

These two publications will be mailed out, showing that the big plant at Nashville is able to do and is doing in the interest of the Sunday-school forces throughout the country.

NOTES INDICATING NEGRO PROGRESS.

As Furnished by the National Negro Business League.

A conservative estimate places the average earnings of the Negro labor of the city at \$100,000 per month. A movement in the form of a realty company in this city has been launched to capture and handle more of this Negro money.

The North Dakota Coal Company is a Negro mining firm which has recently fallen into the hands of Messrs. Ruffin and Adams, of Chicago. The company is said to be installing \$250,000 worth of new and up-to-date machinery, and will soon be in operation again. Much of the new machinery is the invention of Col. Ruffin. The Company has purchased in addition to the mining machinery 1,000 acres of land.

The colored citizens of Denver, Col., have organized what is to be known as the Colorado Commercial Alliance. This organization is to act for the social and commercial interest of both the city of Denver and the State. The wage earning capacity of the Negro of Denver alone is \$2,000,000. The alliance, while not engaged in business itself, will see to it that a good share of this money is circulated among Negro business men, promoting business and giving employment to Negro boys and girls.

With this they will purchase large tracts of land, which will be cut up into ten acre plots.
